Important tips for a Peaceful Vacation

- ⇒ To avoid problems, please do the check-in precise and write down every deficiency at the check form.
- ⇒ The port manuals for the Mediterranean on board may be used for navigation only. Any use of other documents than those specified, results in the liability of the skipper in the case of damage.
- ⇒ The electronic map is a navigation AID and was developed to simplify the use of official maps. It is no replacement for official sea maps and only the official sea maps and messages contain the necessary information for safe navigation. The captain is responsible for correct use.
- ⇒ Since the yacht needs to be returned with full fuel tank, we advise our customers to fill up the yacht already on the day before last day of charter. This saves the customer a long wait at the petrol stations and allows a smooth and timely check-out.
- ⇒ The water tanks and the reserve can of the outboard motor are not to be filled.
- ⇒ Give stowaways (rats) no chance! Please put rests of meal and the Passarella away.
- ⇒ Think of the next guest! Regrettably, it happens that yachts are left in very dirty and disorderly condition. This means that the final cleaning takes longer as it should. This delays the check-in of the next crew considerably. We therefore ask you kindly to ensure the boats are clean and tidy at hand over. Please dispose of your rubbish in the designated containers in the marina. These measures will facilitate a swift and punctual check in for the following crew. Thank you for your cooperation.
- ⇒ ***Our boats cannot go under the bridge 'Ždrelec' that connects island Pašman with island Ugljan and is strongly forbidden to pass under it!***
- ⇒ ***Boat must be returned on the check out with full gasoline tank and an empty fecal tank!!***
